Creating Great Communities for All

Best Practices in Economic Development Awards 2024
Best Practices in Economic Development Awards

OVERVIEW

The American Planning Association Economic Development Division’s mission is to advance the practice and state of the art of economic development planning by increasing the understanding of economic development as a key element of public policy at all levels of government, and to promote it as a critical element of the neighborhood, community, regional and national planning process.

Economic development consists of policies and actions which strive to improve the overall quality of life for a community or region by raising its standard of living, reducing inequality and using resources in a sustainable manner. Each year, the Economic Development Division recognizes communities that exemplify these qualities in its annual Best Practices in Economic Development Awards program.

The 2024 Award Categories are:

1. Best Practices
2. Innovation

*Note: One project from either of the two above categories will be honored with the Donald E. Hunter Excellence in Economic Development Award.*

3. Student Project

Deadline for submission: 5:00 p.m. (EST) on Monday, March 4th, 2024. All nominations shall be submitted using the form provided.
