### System type distinctions

**Zoning Approach:**

- **Use Permissions:** Solar energy systems of all types are permitted in all districts (subject to use-specific standards).

**Impact:**

- No systems need to be removed

**Zoning Approach:**

- **Use Permissions:** All rooftop and small freestanding solar energy systems are permitted; medium and large freestanding systems require special approval.

**Impact:**

- Remove half of all freestanding 100 kW and 1 MW solar energy systems

**Zoning Approach:**

- **Use Permissions:** All roof-top solar energy systems are permitted; small freestanding systems require special approval; medium and large freestanding systems are prohibited.

**Impact:**

- Remove half of all 100 kW and 1 MW solar energy systems

**Zoning Approach:**

- **Use Permissions:** All rooftop and small freestanding solar energy systems are permitted; medium and large freestanding systems require special approval.

**Impact:**

- Remove half of all 5 kW and 25 kW systems; remove all 100 kW and 1 MW systems

**Zoning Approach:**

- **Use Permissions:** All accessory solar energy systems are permitted; primary systems require special approval.

**Impact:**

- Remove half of all 100 kW and 1 MW solar energy systems

**Zoning Approach:**

- **Use Permissions:** All accessory solar energy systems are prohibited.

**Impact:**

- Remove half of all 5 kW and 25 kW systems; remove all 100 kW and 1 MW systems

**Zoning Approach:**

- **Use Permissions:** All accessory solar energy systems require special approval; primary systems are prohibited.

**Impact:**

- Remove half of all 5 kW and 25 kW systems; remove all 100 kW and 1 MW systems

**Zoning Approach:**

- **Use Permissions:** All accessory solar energy systems are permitted; primary systems require special approval.

**Impact:**

- Remove half of all 100 kW and 1 MW solar energy systems

**Zoning Approach:**

- **Use Permissions:** All rooftop and small freestanding solar energy systems are permitted; medium and large freestanding systems require special approval.

**Impact:**

- Remove half of all freestanding 100 kW and 1 MW solar energy systems
