How does NOLA Shares work?

1. Access NOLA Shares via neighborhood kiosk, personal computer, or smartphone. Set up a personal account with NOLA Shares to offer your own services to your neighbors, and purchase goods and services.

2. Find what you need or sign up to offer a shared service by navigating through the categories on the website. Use funds on your reloadable ShareCard to pay for services.

3. Meet up with other residents at physical locations sprinkled across Iberville to exchange goods and services.
